

## FROM THE PRESIDENT'S DESK

Dear Readers,

I have great pleasure in presenting you the current issue of VayuMandal (Vol 46 No 2, 2020): The Bulletin of Indian Meteorological Society (IMS). This issue of Vayu Mandal covers some of the important papers including two review papers by distinguished scientists. The first review paper deals with satellite remote sensing applications for agriculture in the country by Dr. Shibendu S. Ray and the second paper is by Prof. Umesh Kulshrestha on the long range transport of air pollution in South Asia.

I take this opportunity to call upon all the students, researchers, academicians, scientists and professionals in the field to regularly contribute to this journal and thus make their latest research findings known to the community. Your valuable contribution will enhance the quality of this journal.

I wish to place on record my gratitude to the Editorial Committee for their painstaking efforts in bringing out this issue of VayuMandal-2020. I am thankful to all those who have contributed their research papers/articles and am also grateful to the distinguished reviewers for completing the review process timely.

December, 2020

**M. Mohapatra**  
**President, IMS**
